Nikki

Benjamin Simon, benjamin_simon@ios.doi.gov, had some additional question on billing of AUMs within Carrizo Plan National Monuemnt. A new table has been added to the folder (2.e Grazing Data) and the (CarrizoPlain DataSummary 6 7 2017.docx) has been modified to address the table. Both documents are attached below and have been uploaded to the Monument Review Google Drive folder as well.

Please review and forward to Ben once meeting approval.

Thanks

Call for Data Related to Review of National Monuments under EO 13792 (April 26, 2017)**Carrizo Plain National Monument**

Please help us gather information about each of the items listed below, for each of the National Monuments listed below in Table 1.

1. Documents Requested

a. Resource Management Plans/Land Use Plans

- i. The RMP approved in April of 2010 can be accessed via:
<https://eplanning.blm.gov/epl-front-office/eplanning/planAndProjectSite.do?methodName=dispatchToPatternPage¤tPageId=105047>

b. Record of Decision

- i. Can be accessed via; <https://eplanning.blm.gov/epl-front-office/eplanning/planAndProjectSite.do?methodName=dispatchToPatternPage¤tPageId=105047>

c. Public Scoping Documents

| Aug 1-Sept 1 | Public Comments responded by staff |
| September 20 | Issue proposed plan/FONSI/DR |
| | Public notification of Plan Availability |
| October 31 | 30 day protest period ends |
| November 1-30 | Edit, upgrade, finalize RMP Document |
| December 1 | Release Final Carrizo Plain National Monument Plan |

Meetings were held with the public and the Monument Advisory Committee (MAC) in the development of the alternatives, review of the alternatives and development and review of the proposed alternative. These meetings took place in Bakersfield, Carrisa Plains, San Luis Obispo. The public planning process started in July 2002 through 2011 involving the public, tribes and Monument Advisory Committee.

d. Presidential Proclamation

- i. Presidential Proclamation 7393 of January 17, 2001 is in this folder.

2. Information on activities permitted at the Monument, including annual levels of activity from the **date of designation to the present**

a. Recreation - annual visits to site

- i. Include in this folder is the Recreational Management Information System (RMIS) data for annual visitation from 2001 until 2016. Visitations fluctuates from lows in the 20,000's to highs in 80,000's depending on wildflowers expressions.

b. Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)

- i. There has only been one application for a new transmission line during this time period. Pacific Gas and Electric (PGE) applied on 3/30/2016. PGE has done public scoping for this project, however they currently put a hold on the project. There have been 3 renewals on existing right-of- ways

originally issued between 1949 and 1970.

- ii. Energy-annual production of oil and gas for the Morales Canyon and Russell Ranch fields.
- iii. Oil and Gas Production

| Year | Oil BBLS | Gas MCFS |
|------|----------|----------|
| 2001 | 13,195 | 11,725 |
| 2002 | 11,217 | 10,382 |
| 2003 | 14,911 | 4,991 |
| 2004 | 18,691 | 7,730 |
| 2005 | 19,462 | 10,463 |
| 2006 | 18,597 | 13,855 |
| 2007 | 14,004 | 3,553 |
| 2008 | 14,571 | 2,538 |
| 2009 | 16,455 | 105 |
| 2010 | 12,342 | 310 |
| 2011 | 9,765 | 13,040 |
| 2012 | 11,597 | 13,487 |
| 2013 | 14,513 | 16,665 |
| 2014 | 13,863 | 22,758 |
| 2015 | 10,121 | 3,717 |
| 2016 | 8,845 | 2,909 |

Difference in production from year to year may be related to changes in operator's ownership with the facilities, price fluctuation of commodities, and/or return to production after periodic idle well reviews.

- c. **Minerals - annual mineral production on site**
 - i. There are no solid mining activities on the Monument.
 - ii. There are no mineral developments or process facilities adjacent to or impacted by the National Monument designation.
- d. **Timber - annual timber production on site (in board-feet, CCF, or similar measure)**
 - i. There are no active timber operations in the Monument.
- e. **Grazing - annual grazing on site (AUMs permitted and sold)**
 - i. There are two types of grazing authorizations within the boundary of the Monument and some grazing authorizations are only partially within the boundary. There are six traditional Section 15 grazing leases on seven

grazing allotments and eight annual Free Use grazing permits, issued only for the management of vegetation to meet plan objectives rather than the production of livestock forage, on nine grazing allotments. The Free Use grazing permits were established in 1995 in coordination with California Department of Fish and Wildlife and The Nature Conservancy to improve habitat for threatened and endangered species. Free Use Permits are issued to original operators of the allotments who utilized the area prior to the land acquisition.

- ii. The 1996 Caliente RMP lists AUMs prior to designation, also prior to many acquisitions and possible actions to split allotments or otherwise modify monument boundaries. Therefore the percentage of AUM's are reported in direct relationship to the percentage of acres within the monument boundary.
- iii. The Carrizo Plain National Monument (CPNM) was designated in 2001. The 2008 Draft RMP describes conditions after most acquisitions were completed prior to the final 2010 Carrizo Plain National Monument RMP
- iv. The increase in AUMs from 1996 (pre monument designation) are due to land acquisitions occurring within the CPNM boundary.
- v. A summary of actual billed AUMs can be found in table entitled 2.e grazing data. Grazing AUMs levels are subject to conditions such as drought having a total impact from year to year. The note section of the table provides information on variation from year to year from pre designation to current.

Annual AUMs permitted within the Carrizo Plain National Monument (CPNM):

| Grazing Allotment # | Total AUMs in 1996 | CPNM AUMs in 2008 | CPNM AUMs in 2016 | Reason for differences |

| 03945 | 0 | 0 | 261 | Land acquisition |
| 9 allotments | | 59,825 | 58,203 | |

- f. Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available
- i. Subsistence activities are those that provide the bare essentials for living: food, water, and shelter. The Federal Subsistence Management Program provides opportunities for subsistence way of life in Alaska on federal public lands and water there are no formal subsistence programs outside of Alaska.
 - ii. The monument is open to hunting and is regulated by the California Department of Fish and Wildlife.
- g. Cultural - list of cultural uses/values for site; number of sites; other quantifiable

information where available

- i. There are currently a total of 241 recorded archaeological sites within the CPNM. The majority of these sites are associated with the long history of Native American occupation of the Carrizo Plain. One hundred of these constitute scientifically and spiritually significant Native American heritage sites and have been awarded the highest level of national significance as the Carrizo Plain Archaeological District National Historic Landmark. An important component of this district is the 33 pictograph sites internationally recognized as among the most significant examples of their kind in the world. The CPNM also contains a large number of historic period sites are eligible for the National Register of Historic Places. These sites consist of remains and structures associated with mid-18th century settlement and homesteading and subsequent post World War II large scale agricultural development.
- ii. The majority of the known archaeological sites (194) have been recorded since the designation of the CPNM. This is largely due to a marked increase in the completion of archaeological surveys during this period. Since 2001, approximately 22,500 acres, roughly 10% of the monument, has been surveyed for cultural sites.
- iii. Due to the deep history of Native American use and occupation of the Carrizo Plain and the presence of identified sacred sites, contemporary tribes maintain strong ties with the area. The BLM provides tribal access and assist with facilitating ceremonies. In recognition of the significant tribal values associated with the Carrizo Plain, the BLM coordinated with several affiliated groups to establish the Carrizo Plain Native American Advisory Committee in 1997. Since, the BLM continues to work closely with Committee members and other interested tribes and Native American individuals to insure the CPNM is managed in manner compatible with tribal values.

3. Information on activities occurring during the **5 years prior to designation**

a. Recreation - annual visits to site

- i. Prior to designation, traffic counters were not installed. RMIS data is only available from 1999 to current. Visitation numbers from 1996-1998 are based on counts conducted at the Visitor Center. Annual visitation fluctuates significantly based on the amount of wildflowers.

| Year | Visitors |
|------|----------|
| 2000 | 18660 |
| 1999 | 9554 |
| 1998 | 3070 |
| 1997 | 1044 |
| 1996 | 1055 |

- b. Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)
- i. There were no applications for new lines during this time period. There was 1 amendment and 1 renewal for right -of-ways originally issued between 1949 and 1970.
 - ii. There were a total of 8 right-of-ways issued between 1949 and 1970.
 - iii. Energy – Annual production of oil and gas on the Russell Ranch Field and the Morales Canyon Field.
 - iv. Oil and Gas production in the monument.

| Year | Oil BBLS | Gas MCFS |

| 1999 | 22,275 | 17,427 |
| 2000 | 15,983 | 15,770 |

- c. Minerals - annual mineral production on site
- i. There have been no applications for solid mineral development on the Monument.
- d. Timber - annual timber production on site (in board-feet, CCF, or similar measure)
- i. No timber in the Monument
- e. Grazing - annual grazing on site (AUMs permitted and sold)
- i. There are two types of grazing authorizations within the boundary of the Monument and some authorizations which are only partially within the

boundary. There are six traditional Section 15 grazing leases on seven grazing allotments and eight annual Free Use grazing permits, which are issued only for the management of vegetation to meet plan objectives rather than the production of livestock forage, on nine grazing allotments. The Free Use grazing permits were established in 1995.

- ii. The 1996 Caliente RMP lists AUMs prior to designation, but also prior to many acquisitions and actions to split allotments or otherwise modify boundaries.
- iii. The Carrizo Plain National Monument was designated in 2001. The 2008 Draft RMP describes conditions after most acquisitions were completed prior to the final 2010 CPNM RMP.
- iv. A summary of actual billed AUMs can be found in table entitled 2.e grazing data. Grazing AUMs levels are subject to conditions such as drought having a total impact from year to year. The note section of the table provides information on variation from year to year from pre designation to current.

- f. Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available
- i. Subsistence activities are those that provide the bare essentials for living: food, water, and shelter. The Federal Subsistence Management Program provides opportunities for subsistence way of life in Alaska on federal public lands and water there are no formal subsistence programs outside of Alaska.
 - ii. The monument is open to hunting and is regulated by the California Department of Fish and Wildlife.
- g. Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available
- i. Prior to designation of the CPNM, the Carrizo Plain was widely recognized as containing a large number of scientifically significant

historical resources. During this period, the BLM made efforts to ensure these resources were managed according to the federal regulatory framework for historic sites. This would have continued to occur in the absence of the CPNM designation, this framework does not promote the level of site protection addressed in the CPNM proclamation. In addition, opportunities for cultural survey, research, preservation measures, and public interpretation were limited prior to designation due to the lack of funding specific to the management of these highly significant resources.

4. Information on activities that likely would have occurred annually from the date of designation to the present **if the Monument had not been designated**

The answer to this question is highly speculative. The question is best answered with qualitative (rather than quantitative) data.

a. Recreation - annual visits to site

- i. If the monument hadn't been designated, BLM would still anticipate visitor numbers to increase due to population centers growth in areas adjacent to the National Monument (including Los Angeles and San Francisco). However BLM would not expect visitation to increase from outside of California. National and international tourists visit due to monument designation, gateway communities, and the Friends of Carrizo association's outreach, education and social media efforts increasing awareness about the monument.
- ii. All off highway vehicles prior to designation were allowed on designated routes, since designation only street legal vehicles are allowed on designated routes.

b. Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)

- i. The designation of the monument has not affected rights-of-way renewals. The proclamation recognizes valid and existing rights.
- ii. There are two existing active oil fields in the Monument. The proclamation recognizes valid existing rights. Applications for activities in the oil fields have been processed in accordance with the proclamation. Prior to designation there were some small exploratory test sites outside the existing fields with the potential of having 1-3 drilled wells.

c. Minerals - annual mineral production on site

- i. There have been no applications for mineral exploration. If it were a valid

- existing right it would be processed in accordance with the proclamation.
- d. Timber - annual timber production on site (in board-feet, CCF, or similar measure)
 - i. No timber in the Monument
 - e. Grazing - annual grazing on site (AUMs permitted and sold)
 - i. Prior to designation and since 1995, most of the acquired lands within today's' monument boundary have been managed for grazing to meet resource management objectives and not specific to the production of livestock forage. All 15 grazing leases prior to designation and lie within today's' monument boundary have been retained and managed under the laws, regulations, and policies followed by the BLM in issuing and administering grazing permits and leases on all lands under its jurisdiction. The current amount and level of livestock grazing would likely be the same as presented in section 2e.
 - f. Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available
 - i. The BLM does not have sufficient information to predict how designation of the monument has impacted participation rates in subsistence activities.
 - g. Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available
 - i. Prior to the designation of the CPNM, archaeological surveys within the area had been largely limited to project specific individual parcel clearances. This is in contrast to the larger scale, landscape level surveys conducted following the monument designation. As a result, prior to 2001, there were 47 recorded archaeological sites within the CPNM. The majority of these are the well-known Native American pictograph sites and are the hallmark of the Carrizo Plain archaeological record. It is likely archaeological surveys, and the ensuing resource information critical to effective management, would be curtailed to pre-monument levels due to reduced funding if the CPNM had not been designated.
 - ii. The Carrizo Plain has been long associated with contemporary Native American religious and heritage values. In 1997, the BLM, in partnership with affiliated tribes, chartered the Carrizo Plain Native American Advisory Committee (NAAC). Since, the BLM has worked closely with both the NAAC and other tribal members in developing and implementing

land management actions in this area. Due to Bureau wide BLM policies regarding tribal coordination requirements, a similar level of tribal coordination would have likely occurred in the absence of the monument designation. However, the proclamation, and the additional funding to support these goals, increased opportunities to insure that these tribal heritages and spiritual places are preserved.

5. Changes to boundaries - dates and changes in size

- i. There have been no changes to boundaries.

6. Public Outreach prior to Designation - outreach activities conducted and opportunities for public comment

- i. Prior to the Carrizo becoming a National Monument it was managed as a Natural Area. It had a management plan developed with the public and BLM partners. While developing the plan, public meetings were held in Taft, Cuyama, San Luis Obispo, and Carrisa Plains. The Carrizo was then being proposed as a National Conservation Area (NCA). First by Congressman Walter Capps then after his passing, his wife Congresswoman Lois Capps.
- ii. 5/11/1999 Bill was introduced in the House of Representatives
- iii. 9/22/1999 Meeting in San Luis Obispo with Congresswoman Capps, BLM, Partners, Hunters, Ranchers, Environmentalists, Oil persons, and County Supervisors.
- iv. 11/6/1999 Secretary of Interior, Congresswoman Capps and all the persons in the 9/22/1999 meeting. At this meeting the Secretary suggested an Advisory Committee be formed as a subgroup of the Resource Advisory Council (RAC). With representatives from the RAC and persons with local interest in the Carrizo.
- v. 11/23/1999 Meeting at the Carrisa Farm building. Meeting with the Carrizo Advisory committee and general public to discuss National Conservation Area designation.
- vi. 12/13/1999 Carrizo Plain Advisory Committee meeting discussing designation.
- vii. 3/28-29/ 2000 Meeting on Carrizo at the Visitor Center, Secretary of Interior, Congresswoman Capps, Native Americans, local ranchers, environmentalists, oil interest, hunters, partners, press and general public. Discussing National Conservation Area designation.

Throughout this process comments were encouraged from the public and interest groups.

7. Terms of Designation

- i. Refer to Proclamation for the terms of designation. No additional background (e.g., legislated land exchanges or Congressional budget provisions, etc.).
